How is our school doing overall?

Accountability and assistance levels		School percentile										
Our school	Level 2 Not meeting gap narrowing goals	School percentiles (1-99) indicate how a school is performing overall compared to other schools that serve the same or similar grades. Our school's percentile is below. Lowest performing Highest performing										
Our district	Level 3 One or more schools in the district classified into Level 3											
Most schools are assigned a level from 1-5, with those meeting their proficiency gap-narrowing goals in Level 1 and the lowest performing in Levels 4 and 5. A district is typically assigned a level based on the level of its lowest performing school. Placing schools and districts into levels helps districts know which schools need more support, and helps the state know which districts need the most assistance.		Overall progress in narrowing gaps Massachusetts aims to reduce proficiency gaps by half between 2011 and 2017.

What else should you know about our school?

At Juniper Park School, we know that all children can succeed. To promote student learning in literacy, the Westfield Public School District continues its partnership with Bay State Reading Institute. Along with our reading coach, we have a literacy assistant who provides specialized interventions to students. Our daily literacy and math instruction blocks include whole group, as well as small, differentiated groupings. Our math coach assists students and teachers with open response questions, they then conference with individual students to support ongoing growth. Before school classes are conducted for targeted groups of students in the areas of math and literacy. Monthly literacy and math data meetings are held in order to analyze the effectiveness of our instruction and make adjustments as needed. At Juniper Park we work to use data to inform our practice and ensure student success.
